

Company Profile

Advancing Orthopaedic Manufacturing™

Seabrook International is based just north of Boston, in Seabrook, New Hampshire. We are a privately held company that has experienced continuous operative growth for over 40 years. Our business is 100% comprised of medical device manufacturing, where we participate as a top tier supplier of surgical instruments, implants, and custom devices to the world's largest and most prestigious providers of orthopaedic products and solutions.

It's our commitment to quality and robust manufacturing technologies that gives us a competitive edge in delivering for our customers. We provide limitless medical manufacturing possibilities:

PRECISION INSTRUMENTS

As the premier supplier of surgical instruments for leading orthopaedic medical device manufacturers, we are equipped for the most demanding tolerances and complex geometries.

IMPLANTS

Our state-of-the-art, fully validated and dedicated facility focuses on the production of implantable medical devices. Sophisticated production equipment and manufacturing processes enable us to efficiently manufacture a wide variety of implants.

CUSTOMS & SPECIALS

We quickly turn around custom instruments with lead times measured in days, not weeks or months. Our scale and range of expertise are unmatched in the industry.
